How Our Pricing Works

Pricing is based on a flexible daily hire model, giving you full control over your costs. You're charged only for the time you keep the linen.

Billing is done weekly based on the linen you collect and hold, making it easy to manage costs without large upfront expenses.

Item Price

A pick-up price charged when you collect the linen on **Day 1**. This is a one-time fee applied per collection, covering the cost of having your fresh linen prepared and ready for you to take away.

Daily Hire Fee

A small daily hire fee that commences on **Day 2** and continues until you return the linen. When you return the linen, the daily hire charges stop. This means you only ever pay for the exact number of days the linen is in your possession.
